Indigenous Sustainable Communities Design Course

Sustainable Food Systems Design Course

e-mail: tnafa_org@yahoo.com

Sustainable Food Systems Design Course (ISFSDC) 2016 is a six- day intensive training in ecological design, natural farming, seed saving, traditional food and nutrition, indigenous women in agriculture, garden/ farm design, restoring healthy community and ecosystem.

This design course, through a variety of methods, demonstrates how various disciplines must be integrated into a whole system, using nature's model of sustainability and diversity.

Does the current "food system" provide healthy, safe, culturally appropriate foods ? who should take this course , farmers ,gardeners, health professionals, community designers, community leaders, students, youth, mothers, indigenous women, educators.

Camping on site available, location Northern New Mexico
Registration fee , 75.00 , (limited scholarships available)
